A belated heads-up that Chemours is coming to visit next Tuesday ~8:30 – 3:00. I'm still working to finalize the agenda, but wanted to let you know what's going on before I get around to sending out the outlook invitation. I've attached what I'm finalizing with Chemours.

The folks from Chemours will include Sean Uhl, who is a corporate guy, Christel Compton and Brian Taylor from FW, Ken Kelch from WW and you clearly know that Lam is coming.

I'm hoping you guys will be able to accommodate a 15-20 min tour of your labs. Right now I'm targeting the 1:00-2:00 window. Sorry for the lack of notice.
